2000kg GVM

Flat Deck Trailers

This range of galvanized flat deck trailers offer exceptional value, they are available in both single and tandem axle models. These trailers are suitable for many different purposes from palletized loads to hay bails and are suitable for any loads that require side loading. In addition to this the trailer can be used for carrying machinery and equipment, lawn mowers, tanks and much more. This rust free* range of trailers is made from corrosion resistant galvanized steel and is standard with a chequer plate floor, long drawbar and tie rails along each side.

Every trailer is standard with the extra heavy duty chassis with cross members every 300mm. All trailers are standard with mechanical disc brakes with a GVM rating on single axles from 1200kg to 1500kg and up to 2000kg on tandem trailers.
