

2000kg GVM

Tandem Uni Trailers

This very clever range of galvanized trailers offer exceptional value and can quickly adapt to suit many different purposes. The trailer is suitable for carrying machinery and equipment, lawn mowers, tanks and much more. This rust free* range of trailers is made from corrosion resistant gal steel, including the integral floor, chassis, and side channels. It gains its enormous strength from the amazing chassis which has a cross member every 300mm.

The clip panel very clever Australian design incorporating the floor and chassis in one. The strength of the floor is then even further increased by the addition of a chequer plate floor overlay. The heavy duty chassis and drawbar are made from galvanized steel profiles and unlike other profiles our profiles are galvanized inside and out where it really counts. This very clever design gives the trailers' chassis some outstanding qualities; Its strong, rust free, durable and long lasting.
